communication

Science 2.0 ... federates a variety of communication channels to ease ... communication within ... scientific network [Gillet 2009]

open discourse

Science 2.0 allows for a richer dialogue, ..., or an open discourse of critiquing, suggesting, sharing of ideas and data [Waldrop 2008]

collaboration

new technologies [that] continue to reorder whole disciplines, as increased collaboration [Shneiderman 2008]

participation

technology-enhanced participatory science [Underwood et al. 2009]

Opening Up Science: What's happening?

Lawrence, S. (2001). Free online availability substantially increases a paper's impact. *Nature*, 411(6837), 521

Piwowar, H. A., Day, R. S., & Fridsma, D. B. (2007). Sharing detailed research data is associated with increased citation rate. *PLoS ONE*, 2(3): e308.

Eysenbach, G. (2006). Citation advantage of open access articles. *PLoS Biol* 4:e157.

Opening up science: Motivation for workshop

- Well, yes...but....
...what's in it for me?
...someone is going to steal my data/idea
and publish it before me
...what if someone proves me wrong?
...I have no time...
- Data reuse is good and wanted (~80%)
...but I don't want to share my data
publicly (~87%)

Program

10:40	Keynote “A lawyer, a scientist, and a kid walk into a makerspace” Puneet Kishor (previously: Manager, Science and Data Policy, Creative Commons) (incl. discussion)
11:25	“Opening up the research cycle” Daniel Mietchen (Data Science at the National Institutes of Health, U.S. Department of Health and Human Services)
11:55	“Scientific writing in an open platform” Christian Heise (Centre for Digital Cultures at Leuphana University Lüneburg / Open Knowledge Foundation)
12:15	“Opening Up Science – to what end and why?” PD Dr. med. Sönke Bartling (German Cancer Research Center)
12:35	Lunch Break
13:15	World Café (incl. explanation of the concept) ...with four thematic tables (discussion on each table: 15 min) <ul style="list-style-type: none"> • “A lawyer, a scientist, and a kid walk into a makerspace”, moderated by Puneet Kishor • “Wikidata: the database that anyone can edit”, moderated by Daniel Mietchen • “How to overcome the fear of idea theft”, moderated by Christian Heise • “Opening up Science – to what end and why?”, moderated by PD Dr. med. Sönke Bartling
14:30	Coffee Break
14:50	Presentation of results by the moderators (15 min for each topic including discussion)
15:50	Wrap-up
16:00	End of workshop
